Corporate, Securities & Finance

Corporate, Securities & Finance

General Corporate Representation. We serve as general or special legal advisors to many public and privately-held companies, as well as partnerships, strategic alliances and joint ventures. In providing a full range of corporate services, we are focused on working with clients to solve problems and achieve their objectives in the most efficient, effective and time-sensitive manner.

Mergers and Acquisitions. A principal focus at Chamberlain Hrdlicka is mergers and acquisitions. Members of our Corporate, Securities and Finance practice group devote a significant portion of their time to facilitating the structuring, financing and successful completion of the full range of acquisitions, divestitures, public offerings, private placements, joint ventures/strategic alliances, refinancings, international cross-border transactions and other transactions undertaken by clients. We have worked on transactions ranging in size from a few million to more than half a billion dollars.

Our mergers and acquisitions clients have included publicly traded companies, privately held and venture-backed companies, partnerships, investment funds, management groups and entrepreneurs. Our clients range in size from emerging companies to large public corporations in a variety of industries.

Chamberlain Hrdlicka represents both strategic and financial purchasers, sellers, financing sources, management, and advisors in a wide range of transactions involving both public and private companies, including equity and asset acquisitions of both entire companies and subsidiaries or divisions, mergers, leveraged buyouts, spin-offs, recapitalizations and joint ventures.

Public Offerings. Chamberlain, Hrdlicka represents public companies and companies seeking public financing in either initial public offerings (IPOs) or subsequent offerings. Our issuer engagements include all aspects of corporate and business planning and structuring and restructuring, including preparation of registration statements and prospectuses, assistance in negotiating underwriting and placement arrangements and preparation of listing applications on NYSE and NASDAQ.

Private Offerings and Resales. Chamberlain, Hrdlicka, has an active practice in private securities offerings and corporate restructurings. This includes Regulation D offerings and private financing transactions, angel and venture capital financing rounds, and Rule 144A and PIPES transactions that often involve complex resale and trading issues concerning the issued securities. In connection with U.S. corporate restructurings, we regularly counsel clients regarding exemptions from state and

Corporate, Securities & Finance, Continued

federal securities registration laws and related regulatory matters. We also represent individual corporate insiders and assist them with compliance with Rule 144 and related compliance issues.

Public Company Ongoing Compliance. For public company clients, our lawyers advise on a continuing basis about disclosure, corporate governance and both routine and complex regulatory and compliance issues. We assist in the preparation of periodic SEC reports as well as filings triggered by special circumstances and extraordinary transactions. These include insider transactions (including Section 16), option and other equity-based compensation plans, spin-offs, going private transactions, tender offers, proxy contests, corporate restructurings, change in control and other transactional (M&A) events. We also assist holders of significant positions in public companies with their compliance needs (e.g., Section 16 and Section 13(d)).

Banking, Commercial Lending and Finance. Our banking, commercial lending and finance practice group focuses on structuring, negotiating and documenting secured and unsecured, and committed and discretionary commercial credit facilities, including cash-flow and asset-based transactions. We handle leveraged buyouts and acquisition financing, ESOP loans, real estate loans, DIP Loans, debt restructurings, lines of credit, along with other more specialized lending arrangements. We are able to draw upon the experience from our attorneys in other practice groups, including tax, real estate, employee benefits, energy, environmental, securities, and corporate law to provide clients with the guidance to handle any size financing transaction. Additionally, we routinely assist our clients in negotiating and documenting the syndication, intercreditor, participation and subordination agreements required for complex financing arrangements.

Worldwide Presence. Our corporate clients also benefit from Chamberlain Hrdlicka's membership in Meritas Law Firms Worldwide, an international association of independent business law firms. In addition to providing a direct presence for transactions involving entities in large or emerging markets throughout the world, our Meritas contacts bring a better understanding of local law and customs that make the foreign environment more transparent.
